

Hi DI Team Managers,

I hope you are all enjoying the winter break. Once you have chosen a challenge please take the time to watch the webinar to educate yourself. These can be found [here](#). Below I have listed some upcoming trainings and a list of all of our Regional Challenge Masters. The RCM is the person running the challenge. They will not only act as the head appraiser, but will also be your point person for any questions you may have in regard to your challenge. Note that some questions may need to be turned in as a clarification and cannot be answered by the RCM, but it is always worth asking first. :-)

**Registration** is open for the NoCo Canyon Tournament. [Please click here to register](#) To avoid a late fee please have your team registered by January 28th. Final cutoff to register is February 14th.

**T-shirt and Regional Pins** can also be purchased through the registration site. The t-shirt order deadline is February 13th. We will not be selling t-shirts at the tournament so please order before the deadline. The regional pins are part of a set of 4. Pins can be traded at the State Tournament. So you may want to purchase 4 from our region and trade the other 3 at State. A picture of the t-shirt and pins can be viewed on the registration. I have also attached a picture and file below.
