

Dear 2023 Scientific Teams,

We can't wait to hear all of your Tall Tales at the State tournament!

As far as logistics for this year, the scientific challenge will be held in the **CU Student Commons Building** (Academic Bldg One, 1201 Larimer St, Denver, CO 80204) on the first floor - yay for not moving props upstairs!

You can unload your props outside of the building on Larimer street as we will have designated spaces in front of the building for unloading. You will need to plan enough time to unload props, for your driver to find parking, and walk back to the Student Commons Building. Unfortunately, the parking garages are on the other side of campus, so please plan accordingly. Here is a map to the campus showing both parking and our building location:

<https://www.ahec.edu/files/general/Parking-Map.pdf>

(Our building is in the top right, colored black with the CU logo).

The building will be open from 7:00am to 6:00pm. Outside of those times, we will not have the ability to get into the Student Commons Building.

We will be doing pre-Prep as well as day of prep for state this year, so make sure that you have all of your paperwork submitted so that the Prep appraiser and Affiliate Challenge Masters (ACMs) have a chance to look it over prior to the tournament day.

Please don't hesitate to reach out to any of us if you have any questions! We're excited to see you at the tournament!

Best,

Your Colorado Scientific ACMs

Kira, Isaiah, and Jennifer
