

Hello teams!

COLORADO

These are your Affiliate Scientific Challenge Masters here, with a quick message. Congratulations on qualifying for the Colorado Affiliate Tournament! Not every team was able to make it this far, so if nothing else you can be proud of that accomplishment.

The Destination Imagination Colorado Affiliate Tournament will be hosted on Saturday, April 5th. The tournament will be back at the Auraria Campus (1201 5th St, Denver, CO 80204) this year, which is exciting! Upon arrival you will want to park in the Tivoli Parking Garage, or other nearby parking spaces.

Prop and team entrance for Scientific Teams: Coming into Campus from Auraria Parkway, turn into campus on 7th street, turn left on Walnut, right on 8th, left on Larimer Plz, and left on 9th street. Unload in front of the Tivoli. Please be thoughtful of others. No teams should arrive more than 90 minutes ahead of time. Please move your vehicle as soon as you can.

While we will have two challenge sites for our challenge, they will be in the same area, so it will prove easy to find them both. They will be in the Tivoli building on the second floor in the Tivoli Ballrooms, and there will be plenty of signs posted throughout the building on the day of the tournament to help guide you. If your team has any liquids or anything that could make a mess, please make sure they bring a tarp to protect the floor and supplies for clean-up.

We will have raw scores and sticky notes ready to give back throughout the day. Please check the large paper schedules that will be posted outside of the presentation rooms and updated with check marks to indicate when your team's scores are ready. Once you see a check mark next to your name, let the site's head appraiser know that you are there to pick up scores and stickies, and they will be with you as soon as they can. We only ask that you make sure not to enter the presentation rooms in the middle of another team's performance.

It is worth noting that the campus has a strict no-tolerance policy in terms of weapons, so please note that no three-dimensional weapons of any kind (team created or not) will be allowed.

If you are feeling unsure of anything or have any questions, please reach out to us using the emails below so that we can help. Good luck! Have fun! We look forward to seeing you on April 5th!
